10. Other:							

Continuation of 5. does NOT place the application in condition for allowance because: It makes the same arguments as in the Final Rejection. Mainly, that the Examiner used his subjective opinion rather than objective evidence. As a general matter, not only the specific teachings of reference but also reasonable inferences which the artisan would have logically drawn therefrom may by properly evaluated in formulating a rejection. In re Prada, 401 F.2d 825, 159 USPQ 342 (CCPA 1968) and In re Shepard, 319 F.2d 194, 138 USPQ 148 (CCPA 1963). All that is required to show obviousness is that the applicant "make his claimed invention merely by applying knowledge clearly present in the prior art. Section 103 requires us to presume full knowledge by the inventor of the prior art in the field of his endeavor." In re Winslow, 53 CCPA 1574, 1578, 365 F. 2d 1017, 1020, 151 USPQ 48, 50-51 (1966). Skill in the art is presumed. In re Sovish, 769 F. 2d 738, 226 USPQ 771 (Fed. Cir. 1985). Furthermore, artisans must be presumed to know something about the art apart from what the references disclose. In re Jacoby, 309 F. 2d 513, 135 USPQ 317 (CCPA 1962). The conclusions of obviousness may be made from common knowledge and common sense without any specific hint or suggestion in a articular reference. In re Bozek, 416 F. 2d 1385, 163 USPQ 545 (CCPA 1969). In addition,, Applicant disagrees with the Examiner's assertion that it is common knowledge in the art that new items to the data structure should be added or inserted to the ordered list. Examiner asserts that this is notoriously well known and common knowledge because this is basically the definition of "push" on a "stack" or an "enqueue" of a "queue." All other arguments were thoroughly considered but were not found to be persuasive.
